

Volkswagen Cabriolet DIY Guide

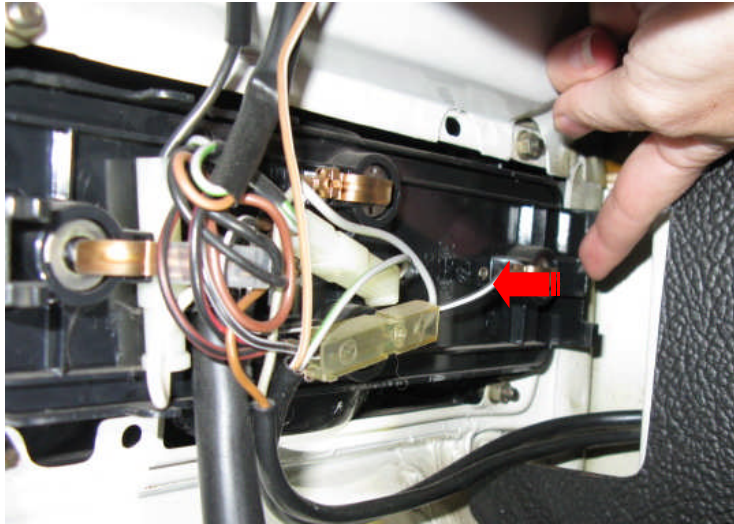

Replacing Tail Light Bulbs

(Driver's side tail light assembly shown in this guide. Access to the assembly is from inside the trunk. No tools required.)

Step 1: Remove tail light cover by pulling the retaining tab towards you while pulling the cover out.

Step 2: Remove tail light bulb holder by pulling the retaining tab towards you while pulling the assembly out.

Step 3: Remove bulb(s): Push in, turn, and pull out.

Reassembly is reverse of disassembly. 🛠️
