

Volkswagen Cabriolet DIY Guide

Manual Transmission Reverse Light Switches

Part Number	Transmission Info	Photo
084-941-521 Metallic Screw-in 2-pin 1 contact	Engines: 1.1L, 1.3L Transmission: 084 4-speed GU GV GW MA QR 1979-1986 M18x1.5	
085-941-521 Metallic Screw-in 2-pin 1 contact	Engines: 1.5L, 1.6L, 1.8L Transmission: 084 4-speed 1979-1990 M12x1.5	
020-945-415A Metallic Screw-in 2-pin 1 contact	Engines: 1.5L, 1.6L, 1.7L, 1.8L Transmission: 020 5-speed with or without MFA FF FH FD FP 4T ACD AEN AUG 1979-1993 M12x1.5	
171-919-823 Brown Bolt-in 4-pin 2 contacts	Engines: 1.7L, 1.8L Transmission: 020 5-speed with upshift indicator and/or MFA FN 7G 1979-1983	
171-919-823A Brown Bolt-in 4-pin 2 contacts	Engines: 1.5L, 1.6L, 1.7L, 1.8L Transmission: 084 4-speed (not installed in North American convertibles)	
191-919-823 Black Bolt-in 5-pin 3 contacts	Engines: 1.8L Transmission: 020 5-speed with upshift indicator and/or MFA 9A 4K 4T 4Y 1984-1987	

Note: The large bolt-in switches may vary depending on location and trim level, which is not reflected in the above table. For example, in the USA, the 9A transmission was mated to a JH engine utilizing an upshift indicator; in Europe, the 9A/JH combo did not use an upshift indicator or MFA. Verify your specific switch when needing to replace it.
